What is an Apostille?

An apostille certifies the authenticity of public documents for use in over 120 countries under the Hague Apostille Convention of 1961. Skip lengthy embassy legalizations—apostilles make **legal documents** internationally valid with ease.

Common Documents We Apostille:

Personal: Birth, marriage, death certificates, divorce decrees, single status affidavits, wills, powers of attorney.

Business: Certificates of incorporation, good standing, company invoices, contracts.

Academic: Diplomas, transcripts, report cards.

FBI Background Checks: Essential for employment, visas, and especially **international adoptions**.
